

SITE VISIT REPORT

Clinical Monitoring — Orion BioPharma

Report ID:	SVR-2025-0052	Visit Type:	Routine Monitoring Visit
Protocol:	OBP-4410-Ph3	Visit Date:	April 10, 2025
Site ID:	SITE-002	Monitor:	Marcus Webb, Senior CRA
Site Name:	Midwest Clinical Center, Chicago, IL		
Subjects Enrolled:	22	Subjects Active:	19

1. Purpose & Scope

This Site Visit Report documents findings from the Routine Monitoring Visit conducted at Midwest Clinical Center, Chicago, IL (SITE-002) on April 10, 2025 for Protocol OBP-4410-Ph3 sponsored by Orion BioPharma. The visit was conducted in accordance with ICH E6(R2) Good Clinical Practice guidelines and applicable regulatory requirements. Areas reviewed included informed consent, eCRF completeness, investigational product accountability, regulatory documentation, adverse event reporting, and source document verification.

2. Visit Summary

Finding Severity	Count	Finding Status	Count
Critical	1	Open	2
Major	2	In Progress	1
Minor	0	Closed	0
TOTAL	3	TOTAL	3

3. Findings Detail

Finding 1 of 3 | Major | Status: Open

Informed consent forms for subjects 004 and 009 were signed after the screening visit procedures had already begun. The ICF must be obtained prior to any study-related procedures per protocol section 6.1.

Finding 2 of 3 | Critical | Status: In Progress

IRB approval letter for the current protocol amendment (v3.1) was not present in the regulatory binder. The amendment was implemented on 10-Jan-2025; IRB approval must precede implementation.

Finding 3 of 3 | Major | Status: Open

Financial disclosure forms for two co-investigators are missing from the regulatory binder. Forms must be on file prior to subject enrollment per 21 CFR Part 54 requirements.
