

SITE VISIT REPORT

Clinical Monitoring — Stratum Clinical

Report ID:	SVR-2025-0063	Visit Type:	For-Cause Visit
Protocol:	STR-0087-Ph2b	Visit Date:	April 17, 2025
Site ID:	SITE-003	Monitor:	Sofia Reyes, CRA I
Site Name:	Pacific Coast Trials, San Diego, CA		
Subjects Enrolled:	11	Subjects Active:	9

1. Purpose & Scope

This Site Visit Report documents findings from the For-Cause Visit conducted at Pacific Coast Trials, San Diego, CA (SITE-003) on April 17, 2025 for Protocol STR-0087-Ph2b sponsored by Stratum Clinical. The visit was conducted in accordance with ICH E6(R2) Good Clinical Practice guidelines and applicable regulatory requirements. Areas reviewed included informed consent, eCRF completeness, investigational product accountability, regulatory documentation, adverse event reporting, and source document verification.

2. Visit Summary

Finding Severity	Count	Finding Status	Count
Critical	0	Open	2
Major	2	In Progress	1
Minor	2	Closed	1
TOTAL	4	TOTAL	4

3. Findings Detail

Finding 1 of 4 | Major | Status: In Progress

Subject 007 missed the Visit 4 window by 9 days (window: ± 3 days). This constitutes a protocol deviation. A deviation report was not filed with the IRB as required by the site's SOPs.

Finding 2 of 4 | Major | Status: Open

Drug accountability records indicate a discrepancy of 2 units between IP dispensed and IP returned/destroyed for subject 015. IP log must be reconciled and supporting documentation provided.

Finding 3 of 4 | Minor | Status: Closed

Source document verification for subject 002 (Visit 2) revealed a transcription error: blood pressure recorded as 128/82 in source notes but entered as 182/82 in the eCRF. The discrepancy has since been corrected.

Finding 4 of 4 | Minor | Status: Open

Freezer temperature log has multiple missing daily entries between 01-Mar-2025 and 15-Mar-2025. Continuous temperature monitoring documentation is required for stored biological specimens.
